

Education

Zhejiang University Ph.D. student, advised by Xiaowei Zhou and Wei Hua	2024–present
The University of Hong Kong M.Sc. in Computer Science	2021–2022
Dalian University of Technology B.S. in Software Engineering	2017–2021

Publications

DynOLAT: OLAT Video Prediction for Controllable Dynamic Full-Body Relighting ACM Transactions on Graphics (SIGGRAPH Asia 2026), accepted Co-first author Volumetric Video Relighting Video Generation Datasets TL;DR: Predicts OLAT video for controllable relighting of dynamic full-body performances; I led the dataset component (224 identity–outfit combinations).
Dyn-E: Local Appearance Editing of Dynamic Neural Radiance Fields Computers & Graphics 126:104 140, 2025 First author Volumetric Video Appearance Editing Tracking TL;DR: Edits local appearance in volumetric video from a single edited frame.
RealMe: Immersive Volumetric Video from Minimal Captures SIGGRAPH Asia 2026 Conference Paper, accepted Volumetric Video Super-Resolution Video Generation TL;DR: Recovers high-resolution volumetric video from sparse, low-resolution captures.
Track4D-Calib: Track-Driven Geometric Closure for 4D Camera-Array Calibration SIGGRAPH Asia 2026 Conference Paper, accepted Volumetric Video Tracking TL;DR: Calibrates dynamic and static cameras in 4D capture systems with temporally coherent tracks.
2nd Volumetric Video Challenge SIGGRAPH Asia 2026 Workshops First organizer Volumetric Video Challenge TL;DR: A workshop and challenge on volumetric video compression and sparse-view reconstruction.

Research and Industry Experience

ZJU3DV group, Zhejiang University RA	2023–2024
4DV.ai Algorithm Research and Development on Volumetric Video	Apr. 2025–Apr. 2026
Hikvision Algorithm research intern; worked on CCTV image quality	May–Sep. 2022

Selected Awards

Chinagraph 2024 Best Paper Award · Dyn-E: Local Appearance Editing of Dynamic Neural Radiance Fields
